Keep Up With The Times & Proactive Advanced Manufacturing

Proactive Advanced Manufacturing

Chain Headway was founded in 1992 to develop and produce cutting tools and accessories for CNC machining centers. Our company has developed over the years to provide a stable production environment with advanced R&D and manufacturing capabilities.

This is designed to provide cutting edge products and more efficient materials processing solutions for various types of industries. Our investment in R&D helps us to deliver the latest materials processing solutions for intelligent manufacturing to our customers.

- We are partnered with the University of Science & Technology developing a group of future Cutting professionals.
- We have a new 8250 square meter production facility which combines our office buildings with automated production facilities.
- Our production and inspection equipment is sourced from Japan and Europe to maintain the best possible quality and efficiency.

Industry processing challenges are constantly evolving with the development of high temperature alloys and composite materials. Our management team is proactively addressing these evolving materials processing requirements to rapidly develop & provide customers with the latest material processing solutions and the best possible customer service.

OUR PRODUCTS

STATIC BOLT-ON TOOL BLOCKS

Chain Headway offers an extensive range of Static tool holders for DMG Mori, Doosan, HAAS, Mazak, Okuma, and many other machine tool manufacturers. Our static toolholders are individually designed for each turning center and precision manufactured, ensuring optimal performance, and enabling you to harness the full potential of your machine.

LIVE TOOLING

Chain Headway's comprehensive product range of live tools are precision manufactured, ensuring optimal performance for your turning center. We prioritize the use of high-performance components in our live tooling, enabling you to achieve the highest efficiency from your machine tool. Chain Headway offers live tooling for DMG Mori, Doosan, HAAS, Mazak, Okuma, and many other machine tool manufacturers.

VDI TOOL HOLDERS

Chain Headway provides a complete line of Static VDI tool holders according to DIN 69880 standards. Our product range is available in 16mm, 20mm, 25mm, 30mm, 40mm, 50mm, 60mm and 80mm VDI shank sizes. Each tool holder is made from high strength alloy steel, hardened, black oxide coated and precision ground.

Leader in CNC Lathe Tooling

TOOL HOLDER BUSHINGS/SLEEVES

Chain Headway has been delivering tool holder bushings and sleeves to customers worldwide. Our product line is available in 22+ different styles in both standard inch and metric sizes. Each tool holder bushing/sleeve is manufactured using from high strength alloy steel, hardened, black oxide coated and precision ground.

TAILOR MADE TOOL HOLDERS

Chain Headway's build-a-tool program allows you to completely customize any tool holder in our product offering to your specialized dimensions/ application. From your conception, to an approved drawing, to being manufactured and delivered, you will be impressed by our quality and service.

In addition, Chain Headway has a wide-ranging database of machine-related solutions for many well-known machine tool manufacturers.

THE CHAIN HEADWAY QUALITY DIFFERENCE

Quality is not just an important part of our everyday operations; it's embedded into them. When you see the Chain Headway name on our products it is a product you can trust. All our tooling is manufactured with the latest machine tool technology run by our expert machinists.

Our underlying standard of quality is not only in our products but also in our customer service. You as the customer are the single most important aspect of our business and we will aim to go above and beyond in order to accommodate your needs.
